**IN THE CLAIMS**

Please cancel Claims 1, 3-5, 7, 8, and 10 without prejudice or disclaimer.

Please amend Claims 2, 6, 9, and 11, 13-15, as follows:

*Sub 2*  
a1 2. (Amended) The method of Claim 27, wherein receiving a selection to participate in a Blackjack game from the player includes:  
receiving a Blackjack wager.

*Sub 2*  
a2 6. (Amended) The method of Claim 2, further comprising:  
for each player winning in the Blackjack game, paying a return, wherein the return varies depending on the Blackjack wager.

*a3 Sub. B's*  
9. (Amended) The method of Claim 21, wherein the card game is played on a gaming table.

*a4 Sub. B's*  
11. (Amended) The method of Claim 32, wherein the representations of the cards are displayed on a terminal.

*Sub 13*  
a5 13. (Amended) The method of Claim 11, wherein the terminal comprises one selected from a group consisting of a personal computer, a minicomputer, a microcomputer, a main frame computer, and a slot machine.

Sub. B3>

14. (Amended) A gaming table for at least one player and a dealer to play a card game with at least one deck of cards, the game being played in accordance with standard rules of Blackjack and including an auxiliary game portion, the gaming table comprising:

a table surface; and

at least one player location indicated on the table surface, each of the at least one player location including:

an indicated Blackjack bet location;

an indicated auxiliary game portion bet location;

wherein the play of the card game includes:

receiving a selection to participate in a Blackjack card game from each of the at least one player;

optionally receiving a selection to participate in the auxiliary game portion from each of the at least one player;

playing the Blackjack card game in accordance with rules of Blackjack, the Blackjack round including:

sequentially dealing a first card to each player and a first card to the dealer;

sequentially dealing a second card to each player and a second card to the dealer;

providing an option to receive additional cards to each of the at least one player and the dealer;

dealing additional cards to each of the at least one player and the dealer selecting to receive additional cards, in accordance with the rules of

Blackjack, such that each player has a player Blackjack hand and the dealer has a dealer Blackjack hand;

determining whether each player wins the Blackjack round; and

for each of the at least one player from which a selection to participate in the auxiliary game is received:

determining whether the dealer hand is non-breaking; and

if the dealer hand is non-breaking, determining whether the player wins the auxiliary game, regardless of whether the player won the Blackjack game.

as  
cont.

15. (Amended) A device for a player to play a card game with representations of a deck of cards, the game being played in accordance with standard rules of Blackjack and including an auxiliary game portion, the device comprising:

a display for displaying the card game, including the representations of a standard deck of cards; and

a processor for receiving selections from the player for play of the game, for determining progress of play, and for processing and displaying a graphical user interface;

wherein a selection is received to participate in a Blackjack card game from each of the at least one player;

wherein a selection to participate in the auxiliary game portion is optionally received from each of the at least one player;

wherein the Blackjack card game is played in accordance with rules of Blackjack, the Blackjack round including:

AS  
concl.

sequentially dealing a first card to each player and a first card to the dealer;

sequentially dealing a second card to each player and a second card to the dealer;

providing an option to receive additional cards to each of the at least one player and the dealer;

dealing additional cards to each of the at least one player and the dealer selecting to receive additional cards, in accordance with the rules of Blackjack, such that each player has a player Blackjack hand and the dealer has a dealer Blackjack hand;

determining whether each player wins the Blackjack round; and  
for each of the at least one player from which a selection to participate in the auxiliary game is received:

determining whether the dealer hand is non-breaking; and

if the dealer hand is non-breaking, determining whether the player wins the auxiliary game, regardless of whether the player won the Blackjack game.

Please add the following new Claims 21-32:

ab

--21. (New) A method for playing a Blackjack game with an auxiliary game for a player, the method comprising:

B

dealing a player hand to the player;

dealing a dealer hand;

optionally dealing additional cards to the player hand and the dealer hand, in accordance with rules of Blackjack;

comparing the player hand to the dealer hand to determine if the player wins in the Blackjack game, in accordance with the rules of Blackjack;

determining whether the dealer hand is non-breaking; and

if the dealer hand is non-breaking, determining whether the player wins the auxiliary game, regardless of whether the player won the Blackjack game.

Sub. B<sup>4</sup> 22. (New) The method of Claim 21, further comprising:

receiving a selection from the player as to whether to participate in the auxiliary game.

23. (New) The method of Claim 22, further comprising:

if the selection received from the player is to participate in the auxiliary game, receiving an auxiliary bet selection from the player for a dealer hand characteristic.

24. (New) The method of Claim 23, wherein the dealer hand characteristic is selected from a group consisting of the dealer hand being all red, the dealer hand being all black, the dealer hand totaling an even number, the dealer hand totaling an odd number, the dealer hand consisting of two cards, the dealer hand consisting of three cards, the dealer hand consisting of four cards, the dealer's hand consisting of five cards, the dealer's hand consisting of six cards, and the dealer's hand consisting of seven cards.

Sub, B5 25. (New) The method of Claim 24, wherein the dealer hand characteristic has an associated payable return.

Sub B5 } 26. (New) The method of Claim 25, wherein the payable return for the dealer hand being all red is 5 to 1, the dealer hand being all black is 5 to 1, the dealer hand totaling an even number is 3 to 2, the dealer hand totaling an odd number is 1 to 1, the dealer hand consisting of two cards is 3 to 2, the dealer hand consisting of three cards is 2 to 1, the dealer hand consisting of four cards is 8 to 1, the dealer's hand consisting of five cards is 50 to 1, the dealer's hand consisting of six cards is 500 to 1, and the dealer's hand consisting of seven cards is 6500 to 1.

Cont Sub, B6 27. (New) The method of Claim 21, further comprising:  
receiving a selection from the player of whether to participate in the Blackjack game.

28. (New) A method for playing a Blackjack game with an auxiliary game for a player, the method comprising:  
receiving a selection from the player as to whether to participate in the auxiliary game;  
dealing a player hand to the player;  
dealing a dealer hand;  
providing an option to receive additional cards in the player hand and the dealer hand, in accordance with rules of Blackjack;  
comparing the player hand to the dealer hand to determine if the player wins the

Blackjack game, in accordance with rules of Blackjack; and

if the selection received from the player is to participate in the auxiliary game:

determining whether the dealer hand is non-breaking; and

if the dealer hand is non-breaking, determining whether the player wins the auxiliary game based on a dealer hand characteristic;

wherein the dealer hand characteristic is selected from a group consisting of the dealer hand being all red, the dealer hand being all black, the dealer hand totaling an even number, the dealer hand totaling an odd number, the dealer hand consisting of two cards, the dealer hand consisting of three cards, the dealer hand consisting of four cards, the dealer's hand consisting of five cards, the dealer's hand consisting of six cards, and the dealer's hand consisting of seven cards.

29. (New) A method for at least one player and a dealer to play a card game with a plurality of cards, the card game including a Blackjack play portion played in accordance with conventional rules of Blackjack and an auxiliary game portion, the method comprising:

receiving a selection to participate in the Blackjack play portion from each of the at least one player;
